**Vortex Fluid
Optimizer**

Press Release

Vortex Fluid Optimizer Announces New Sales Representative in (City)

***Vortex Fuel Saver* Saves Money and Reduces Emissions**

(City, ST) Month xx, 20xx John Doe has been appointed as a Sales Representative for the City area to service the growing demand for the **Vortex Fuel Saver**, which typically saves from 10-25% of the fuel costs and reduces emissions up to 99% for automobiles and light trucks. Mr. Doe was selected from scores of applicants and has completed a training course in the use and sales of the **Vortex Fuel Saver**.

The **Vortex Fuel Saver** is guaranteed to increase Miles Per Gallon (MPG) by a minimum of 10% and comes with a 100%, No-Questions-Asked, money back guarantee. Additionally, there is a Lifetime Power Warranty.

The inventor of the **Vortex Fuel Saver** notes "One of the problems with concentrating on just reducing air pollution from burning fuel is that the systems on the market are expensive and waste fuel. This technology works by increasing the burning efficiency which reduces the harmful emissions. This is great. Now you can save money, and literally get paid to reduce air pollution."

Tens of thousands of users throughout the years report smoother, more powerful running engines with substantial reductions in fuel purchases and emissions. These benefits are verified in voluminous worldwide testing.

In a time of depleting natural resources, rising fuel costs and dangerous global warming, the **Vortex Fuel Saver** is here to help. The system, similar to what is used on the NASA space shuttle, increases fuel mileage and power while reducing emissions. The electromotive energy of properly designed magnetic fields makes the fuel atomize and ionize efficiently with the oxygen for increased combustion efficiency. The normal hydrogen atom is changed into energized hydrogen that increases the BTU output giving more MPG from less fuel while reducing emissions. For more information, please visit: www.VortexFuelSaver.com.

Mr. Doe became convinced of the value of the product after experiencing a xx.x% increase in fuel mileage on his 20xx yyyy. Mr. Doe has previously been employed by xxxxxxxxxxxxxxxx and is a member of the (Rotary, Church, etc.) John can be reached at (xxx) 123-4567, or via email at John.Doe@VortexFuelSaver.com. (Optional – if you already have locations, Vortex Fuel Savers are available at Joe's Garage on Main St. and Gary's Auto Center on Route 123.)
