

# Vortex Fuel Saver

## Complete Combustion Tech <sup>SM</sup>

The Vortex Fuel Saver (VFS) system is the 22nd Century engine technology that saves fuel, increases performance, reduces emissions and extends engine life.

- No Additives
- No Cutting Lines
- No moving parts
- No maintenance for life
- Lifetime Power Warranty
- 90 day Money Back Guarantee

The VFS uses modified Ortho-hydrogen NASA technology which automatically energizes the fuel for explosively increased combustion efficiency.

Increase octane behavior. Save more money per gallon, get high-test performance from regular

The Vortex Optimizer System dissolves scale in the engine, radiator and heater extending engine life and increasing performance.

**An hour's  
installation for a  
Lifetime Savings**

Save Money Buying Gas:

**Engineered to treat all systems**  
Fuel, Air, and Cooling—for maximum  
combustion efficiency.

**VFO's strong atomic charge**  
increases horsepower for faster  
acceleration while using less fuel at  
normal speeds.

**Power this**

**Into this**

**Increased Power**
